React

Notions avancées

2

Les stores

WITHOUT REDUX

WITH REDUX

 COMPONENT INITIATING CHANGE

2

Les stores

2

Les stores

Pourquoi c'est plus simple ?

- Les données sont contenues au même endroit
- Les données sont accessibles par tout le monde
- Les actions de modification des données sont contenues au même endroit
- Les processus de modification des données sont plus simples
- Les composants n'ont plus la responsabilité de gérer les données, ils les affichent seulement

2

Clean-architecture

2

Clean-architecture

Bonnes pratiques

- une classe / fichier = une responsabilité
- normer les nommages
- utiliser des interfaces
- respecter une structure de dépendances définie

TRANSITION HEADLINE

Let's start with the first set of slides

the reader.*

THIS IS A SLIDE TITLE

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but won't do both.

BIG CONCEPT

Bring the attention of
your audience over a key
concept using icons or
illustrations

YOU CAN ALSO SPLIT YOUR CONTENT

White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

Black

Is the color of ebony and of outer space. It has been the symbolic color of elegance, solemnity and authority.

IN TWO OR THREE COLUMNS

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A PICTURE IS WORTH A THOUSAND WORDS

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.
